

## How to create a Parent Account?

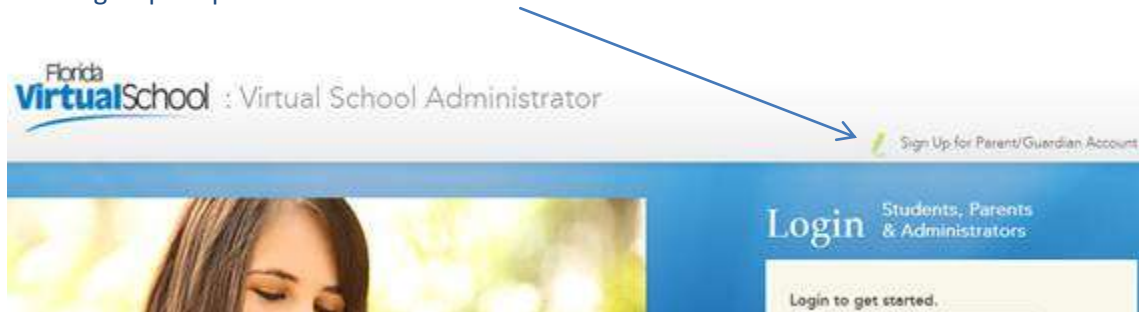

Parent's account Login:

[www.Flvs.net](http://www.Flvs.net)

On the left side click login

Then Sign Up for parent Guardian Account

Follow the steps. If you have not received previously Parent/Guardian username and password then you will need your son/daughter username and password. Each student has this but you can contact me if they can't remember.

You don't have to create a parent account to see your child's grade, you can always access the course using your child's username and password.
